CONTENTS OF VOLUME 209

No. 1. *July* 1970

PAGE

Heterosynaptic facilitation and post-tetanic potentiation in *Aplysia* nervous system. By R. Epstein and L. Tauc . . . 1

The effect of the internal sodium concentration on calcium fluxes in isolated guinea-pig auricles. By H. G. Glitsch, H. Reuter and H. Scholz 25

Cervico-lumbar reflex interactions involving a proprioceptive receiving area of the cerebral cortex. By V. C. Abrahams . . 45

Further purification of a polypeptide demonstrating enterogastrone activity. By J. C. Brown, V. Mutt and R. A. Pederson 57

Mesopic increment threshold spectral sensitivity of single optic tract fibres in the cat: cone–rod interaction. By D. P. Andrews and P. Hammond 65

Suprathreshold spectral properties of single optic tract fibres in cat, under mesopic adaptation; cone–rod interaction. By D. P. Andrews and P. Hammond 83

On the relationships between membrane potential, calcium transient and tension in single barnacle muscle fibres. By C. C. Ashley and E. B. Ridgway 105

The effects of some inhibitors and accelerators of sodium transport on the turnover of ^{22}Na in the cerebrospinal fluid and the brain. By H. Davson and M. B. Segal 131

The representation of three-dimensional visual space in the cat's striate cortex. By Colin Blakemore 155

Miniature potentials in denervated slow muscle fibres of the frog. By R. Miledi and E. Stefani 179

Diffusion and distribution of dimethyl sulphoxide in the isolated guinea-pig taenia coli. By B. C. Elford 187

The effect of the tetraethylammonium ion on the delayed currents of frog skeletal muscle. By P. R. Stanfield 209

The differential effects of tetraethylammonium and zinc ions on the resting conductance of frog skeletal muscle. By P. R. Stanfield 231

No. 2. *August* 1970

PAGE

Comparison of the reflex vasomotor responses to separate and combined stimulation of the carotid sinus and aortic arch baroreceptors by pulsatile and non-pulsatile pressures in the dog. By JENNIFER E. ANGELL JAMES and M. DE BURGH DALY . . . 257

Characteristics of neural transmission from the semicircular canal to the vestibular nuclei of cats. By G. MELVILL JONES and J. H. MILSUM 295

The site of action of nerves in the pulmonary vascular bed in the dog. By I. DE BURGH DALY, D. J. RAMSAY and B. A. WAALER . 317

Field potentials evoked in the brain stem of the cat by stimulation of the carotid sinus, glossopharyngeal, aortic and superior laryngeal nerves. By T. J. BISCOE and S. R. SAMPSON 341

Responses of cells in the brain stem of the cat to stimulation of the sinus, glossopharyngeal, aortic and superior laryngeal nerves. By T. J. BISCOE and S. R. SAMPSON 359

An analysis of the inhibition of phrenic motoneurones which occurs on stimulation of some cranial nerve afferents. By T. J. BISCOE and S. R. SAMPSON 375

The effect of hypoxia, hypercapnia and hypotension upon carotid body blood flow and oxygen consumption in the cat. By M. J. PURVES 395

The role of the cervical sympathetic nerve in the regulation of oxygen consumption of the carotid body of the cat. By M. J. PURVES 417

Interaction of cortical evoked potentials in the rat. By O. HOLMES and A. D. SHORT 433

Effects of intragastric hyperosmolal solutions on gastric function. By A. A. HARPER, J. D. REED and J. R. SMY 453

Place and modality analysis in caudal reticular formation. By DAVID BOWSHER 473

Observations on the change in shape of blood platelets brought about by adenosine diphosphate. By G. V. R. BORN 487

No. 3. *August* 1970

PAGE

The effect of noradrenaline on the toad skin potential. By C. R. House 513

On the mode of action of ACTH on the isolated perfused adrenal gland. By Siret D. Jaanus, M. J. Rosenstein and R. P. Rubin 539

Acetylcholine in adrenergic terminals of the cat iris. By B. Ehinger, B. Falck, H. Persson, A.-M. Rosengren and B. Sporrong 557

Daily changes in foetal and maternal blood of conscious pregnant ewes, with catheters in umbilical and uterine vessels. By R. S. Comline and Marian Silver 567

P_{O_2}, P_{CO_2} and pH levels in the umbilical and uterine blood of the mare and ewe. By R. S. Comline and Marian Silver . . . 587

Intrapulmonary receptor response to changes in airway-gas composition in *Gallus domesticus*. By M. R. Fedde and D. F. Peterson 609

Physiological and morphological properties of motoneurones in the central nervous system of the leech. By Ann E. Stuart . 627

Monosynaptic chemical and electrical connexions between sensory and motor cells in the central nervous system of the leech. By J. G. Nicholls and D. Purves 647

Structural changes in the small intestine associated with the uptake of polyvinyl pyrrolidone by the young ferret, rabbit, guinea-pig, cat and chicken. By Rufus M. Clarke and R. N. Hardy 669

The effect of procaine on neuromuscular transmission. By M. Kordaš 689

Neuromuscular transmission in new-born rats. By P. A. Redfern 701

The proprioceptive reflex control of the intercostal muscles during their voluntary activation. By J. Newsom Davis and T. A. Sears 711

Medullary activation of intercostal fusimotor and alpha motoneurones. By P. Andersen and T. A. Sears 739

Adrenaline in bird brain. By A. V. Juorio and Marthe Vogt . 757

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

17–18 *April* 1970

DEMONSTRATIONS

PAGE

McCarthy, B. D. & Rosen, D. An apparatus for the automatic extraction of cell parameters from microscope slide preparations 1*P*

Rochman, H. & Stagg, B. H. Radio-immunoassay of human placental lactogen . 1*P*

Butterworth, P. J., Plummer, D. T., Rochman, H. & Weber, W. V. Factors affecting the release of enzymes from the isolated perfused rat heart 3*P*

Evered, D. F. & Wass, Milica. Transport of glutathione across the small intestine of the rat *in vitro* 4*P*

Howe, A. & Thody, A. J. The *in vitro* assay of pituitary MSH 5*P*

Brown, D., Hall, Mary & Lal, S. Pattern transformation by neural nets . . 7*P*

Hadland, R. C., Hooley, A., Lal, S. & Parr, M. A simple artificial neurone for classroom use 8*P*

Lal, S., Layman, D., McCarthy, B. & Whitt, M. An electrically controlled thermal stimulator 9*P*

Ambache, N. & Zar, M. Aboo. Non-cholinergic nature of the post-ganglionic motor neurones in guinea-pig bladder 10*P*

Collier, J. G. & Dornhorst, A. C. Bier's Spots—evidence that they are mediated by an intravascular venoconstrictor substance 12*P*

Williams, W. P. Intensity variation of inhibition of photosynthesis by photosystem II inhibitors 13*P*

Layman, D. B. & Weber, W. V. A gated stimulator of modular construction . 15*P*

Plummer, D. T. & Wright, P. J. The collection of rat urine free of faecal contamination 16*P*

Holdsworth, R., Weber, W. V. & Wong, R. Measurements of tension in muscles of *R. temporaria* and *R. cancrivora* when submitted to osmotic stress (T) . . 17*P*

Deane, Barbara M. & Layman, D. A cooling device for the cold-blocking of nerves (T) 18*P*

Haslam, J. Methods for collecting urine from the domestic fowl. Effects of neurohypophysial hormones on urinary excretion (T) 18*P*

COMMUNICATIONS

Abbott, Carole P. & Howe, A. Ultrastructure of aortic body tissue in the cat . 18*P*

Miller, A. & Tregear, R. T. Evidence of crossbridge attachment to I-filaments in active striated muscle (T) 19*P*

Garrett, J. R. & Holmberg, J. The secretory parasympathetic innervation of the parotid gland of the dog 19*P*

Finberg, J. P. M. & Peart, W. S. Intrarenal blood flow distribution in the rat, and the effect of angiotensin, noradrenaline and vasopressin 21*P*

Angell James, Jennifer E. & Daly, M. de Burgh. Reflex vasomotor responses elicited from the carotid sinus and aortic arch baroreceptors: comparison of pulsatile and non-pulsatile pressures 22*P*

Dicker, S. E. & Elliott, Annie B. Ultrastructure of urinary bladder of *Rana cancrivora* 23*P*

Rossi-Bernardi, L. & Roughton, F. J. W. The role of oxygen-linked carbamate in the transport of CO_2 by human erythrocytes under physiological conditions . 25*P*
